

User evaluation of the five last regular **ARB/SILVA Workshops** in Bremen, Germany
 (September 2008 - December 2010; 50 participants in total)

We also have asked the participants to which level their **expectations** were met. They gave a mean value of **> 90%**. Obviously, our workshop descriptions are quite transparent. Nevertheless, we are continuously working on improvements ... Many thanks for all the positive feedback!

The 4 day workshops are operated by Ribocon.
